SUMMARY

Web Developer with 5 years of experience creating fast, responsive, and accessible websites. Specialized in clean UI, cross-platform compatibility, and pixel-perfect front-end development. Proven success working with teams across the US, UK, Australia, and the Middle East.

WORK EXPERIENCE

Front-End Web Developer, Argam Investment Co, Remote **October 2024 – June 2025**

- Led the IT team in developing responsive, multi-language websites with large content structures.
- Built 5–10 interactive annual report websites, tailored for high performance and usability.
- Ensured full compatibility across modern browsers and mobile devices.

WordPress Developer, Deep Business Partners Co, Remote **June 2024 – September 2024**

- Led the creation of a business consulting website with over 40 features.
- Applied SEO best practices, boosting search rankings by 32%.
- Improved website speed and responsiveness, reducing load times by 60%.

WordPress Developer, 565 Energy Co, Remote **February 2024 – May 2024**

- Built an e-commerce site for smart energy products with secure login and streamlined ordering, boosting sales by 18%.
- Improved UX with new features, increasing customer satisfaction by 47%.

Front-End Web Developer, Fasel HD Co, Remote **Feb 2020 – January 2024**

- Developed a streamlined user experience for a movie and series website, implementing user feedback that led to a significant reduction in navigation-related support inquiries by around 20% within the first quarter post-launch.
-

EDUCATION

Bachelor of Science in Computer Science **(Expected Graduation: 2027)**

- Arab Open University | 2023 – Present
-
